

MULTIETHNIC ADVOCATES
FOR CULTURAL COMPETENCE

HR Training in Response to the COVID-19 and Opiate Crisis

The goal of this training is to understand how implicit bias and discrimination within businesses affect the overall workplace and limit the capacity of an organization to fulfill its potential for much success.

Learning Objectives

- Understand the elements of cultural competency and how the lack of it affects society and the workplace in the form of bias and discrimination.
- Learn the effects of implicit bias and discrimination on identified human resources functions.
- Understand how mental health, opioid use, and COVID have affected the workplace.
- To explore solutions that can help improve the workplace, reduce bias, and discrimination.
